## **ACKNOWLEDGEMENT**

The internship opportunity I had with Grownited Private Limited was a great chance for learning and professional development. Therefore, I consider myself as a very lucky individual as I was provided with an opportunity to be a part of it.

Bearing in mind previous I am using this opportunity to express my deepest gratitude and special thanks to the Mr. Rahul Kirpekar Branch Manager at the Company who in spite of being extraordinarily busy with her duties, took time out to hear, guide, and keep me on the correct path and allowing me During My training at Grownited Private Limited.

I express my deepest thanks to Miss. Shruti Pethani , Head of customer support for taking part in useful decisions& giving necessary advice and guidance and arranging all facilities to make life easier. I choose this moment to acknowledge his/her contribution gratefully.

## **Abstract**

Industrial training is an important phase of a student's life. A well-planned, properly executed, and evaluated industrial training helps a lot in developing a professional attitude. It develops an awareness of the industrial approach to problem-solving, based on a broad understanding of the process and mode of operation of an organization.

The aim and motivation of this industrial training are to receive discipline, skills, teamwork, and technical knowledge through a proper training environment, which will help me, as a student in the field of IT, to develop responsiveness to the self-disciplinary nature of problems.

During 12 weeks of training at Grownited Private Limited, I was assigned as a technical supporter to help the company in the field of IT. Throughout this industrial training, I have learned new software development languages and software such as Python, Django, Java, C++, Web Development. I'm also able to implement what I have learned over the past year as an **Electronics and Communication** student at **L.J. INSTITUTE OF ENGINEERING & TECHNOLOGY**, Ahmedabad.
